July 23rd, 2002

Dear Community Leader,

The Granville County Assessment Team is a group of partners that has the common goal of assessing needs in our community. Since many organizations conduct needs assessments, we decided to make the process more efficient by combining our multiple efforts into one. This will also be less burdensome on community members who might be asked to respond to numerous surveys.

We plan to use a combination of methods to collect information about Granville County. By combining statistical data with residents' opinions, we hope to produce a well-rounded picture of both the strengths and needs of our community. The resulting document should be useful to organizations as they plan their specialized services as well as to citizens who want to know more about their county.

You have been identified as an important community member who will be able to offer useful insight into a variety of issues. We are asking you to complete the enclosed questionnaire to help us compile a community portrait of assets and needs. It is vitally important for the success of this project that you give your thoughtful consideration to the questions, and that you return the questionnaire to us. We are striving for a 100% response rate in order to be sure that we produce a balanced picture of Granville County. Your voice counts!

The responses that you and others give to this survey will be used to produce a description of community leaders' perception of how various issues affect Granville County. Your answers will be completely confidential and will also serve as a springboard for discussion in a series of citizen focus groups that we will organize after we receive the completed surveys. You can see how important it is that you return yours to us with your responses.

We are excited about the possibilities this collaboration can create for meeting community needs. We hope that you will feel the same and make your contribution by completing and returning your survey in the enclosed, pre-addressed, stamped envelope by August 1st, 2002.

Thank you for your part in making this undertaking a success.
